

SEMINAR PROGRAM

APRIL 2008

WEDNESDAY, 2 APRIL
9:15am to 10:15am
Level 3, Board Room
Medical Foundation Building (K25)

TITLE: THE ROLES OF THREE ALDO-KETO REDUCTASES (AKR1C) IN PROSTATE CANCER
Presenter: Lucia Musumeci

IMPROVING PROTEIN IDENTIFICATION USING ARTIFICIAL INTELLIGENCE
Presenter: Leo McHugh

MFB Seminar Series

WEDNESDAY, 2 APRIL
12:00pm to 1:00pm
Norman Gregg Lecture Theatre
Edward Ford Building (A27)

TITLE: QUO VADIS, GENOMA? LESSONS FROM GALACTOSEMIA, PROSTATE CANCER AND ATHEROSCLEROSIS
Presenter: Professor Juergen Reichardt, Medical Foundation, University of Sydney

School of Medical Sciences Seminar Series (Pharmacology)

FRIDAY, 4 APRIL
1:00pm to 2:00pm
Room N248
Anderson Stuart Building (F13)

TITLE: FAT, PHOTOPERIOD, AND HIBERNATION
Presenter: Professor Fritz Geiser, Zoology, University of New England

Anderson Stuart Seminar Series

WEDNESDAY, 9 APRIL
9:15am to 10:15am
Level 3, Board Room
Medical Foundation Building (K25)

TITLE: TITLE TO BE ANNOUNCED
Presenter: Anthony Ashton (Kolling)

MFB Seminar Series

WEDNESDAY, 9 APRIL
12:00pm to 1:00pm
Norman Gregg Lecture Theatre
Edward Ford Building (A27)

TITLE: NMR-BASED METABONOMICS
Presenter: Dr Anthony Maher, Department of Biomolecular Medicine, Imperial College, London

School of Medical Sciences Seminar Series (Pharmacology)

FRIDAY, 11 APRIL
1:00pm to 2:00pm
Room N248
Anderson Stuart Building (F13)

TITLE: RNA BINDING PROTEINS AND THEIR ROLE IN ALTERNATIVE PRE-MRNA SPLICING IN GERM CELL DEVELOPMENT AND INFERTILITY
Presenter: Dr David Elliott, Institute of Human Genetics Newcastle University, Newcastle Upon Tyne UK

Anderson Stuart Seminar Series

Today's Research – Tomorrow's Medicine

WEDNESDAY, 16 APRIL
12:00pm to 1:00pm
Norman Gregg Lecture Theatre
Edward Ford Building (A27)

TITLE: IN SEARCH OF NOVEL TYPES OF ANTIBIOTICS BY TARGETING BACTERIAL MECHANOSENSITIVE CHANNELS
Presenter: *Professor Boris Martinac, School of Biomedical Sciences*

School of Medical Sciences Seminar Series (Pharmacology)

WEDNESDAY, 16 APRIL
9:15am to 10:15am
Level 3, Board Room
Medical Foundation Building (K25)

TITLE: A NEW ELISA METHOD FOR THE DETECTION OF OXIDIZED APOLIPOPROTEIN A-I AND HDL
Presenter: *Xiao Suo Wang*

THE ROLE OF G-PROTEIN RECEPTOR KINASE IN THE REGULATION OF EPITHELIAL Na^+ - CHANNELS
Presenter: *Jake Lee*

MFB Seminar Series

FRIDAY, 18 APRIL
1:00pm to 2:00pm
Room N248
Anderson Stuart Building (F13)

TITLE: KEEPING THE GROWTH CONE ON THE STRAIGHT AND NARROW: THE ROLES OF FLAMINGO AND NEUROGLIAN IN AXON GROWTH
Presenter: Associate Professor Paul Whittington, University of Melbourne

Anderson Stuart Seminar Series

WEDNESDAY, 23 APRIL
12:00pm to 1:00pm
Norman Gregg Lecture Theatre
Edward Ford Building (A27)

TITLE: DIMERS ARE FOREVER: NEW DEVELOPMENTS IN THE MECHANISM OF THE Na^+ , K^+ -ATPASE
Presenter: *Dr Ron Clarke, School of Chemistry, University of Sydney*

School of Medical Sciences Seminar Series (Pharmacology)

WEDNESDAY, 30 APRIL
9:15am to 10:15am
Level 3, Board Room
Medical Foundation Building (K25)

TITLE: MICROPARTICLES AND INFLAMMATION
Presenter: *Valery Combes*

MFB Seminar Series

WEDNESDAY, 30 APRIL
12:00pm to 1:00pm
Norman Gregg Lecture Theatre
Edward Ford Building (A27)

TITLE: IMAGING THE TRANSLOCATOR PROTEIN (18kDa) IN NORMAL AND DISEASE STATES USING POSITRON EMISSION TOMOGRAPHY
Presenter: *Michelle James (Kassiou, Final PhD talk)*

School of Medical Sciences Seminar Series (Pharmacology)

Today's Research – Tomorrow's Medicine

The Bosch Institute is a joint initiative of the University of Sydney and the Sydney South West Area Health Service
