

SEMINAR PROGRAM

SEPTEMBER 2008

WEDNESDAY, 3 SEPTEMBER

9:15am to 10:15am

Auditorium

Medical Foundation Building (K25)

TITLE: NEW PEPTIDES AND INSIGHTS INTO PREECLAMPSIA

Presenter: *Annemarie Hennesy*

MFB Seminar Series

WEDNESDAY, 3 SEPTEMBER

12:00pm to 1:00pm

Norman Gregg Lecture Theatre

Edward Ford Building (A27)

TITLE: AFFINITY-BASED PROFILING OF Fe(III)-UPTAKE PROTEINS IN STREPTOMYCES PILOSUS

Presenter: *Joe Liu (Codd, PhD Progress)*

ANGIOGENESIS AND TUMSTATIN

Presenter: *Karryn Grafton (Oliver, PhD Progress)*

School of Medical Sciences Seminar Series (Pharmacology)

WEDNESDAY, 3 SEPTEMBER

1:00pm to 1:30pm

Norman Gregg Lecture Theatre

Edward Ford Building (A27)

TITLE: HOW TO WRITE A THESIS

Presenter: *Dr Jasmine Henderson*

School of Medical Sciences Seminar Series (Pharmacology)

FRIDAY, 5 SEPTEMBER

1.00pm to 2.00pm

Room 351

Education Building (A35)

TITLE: VITAMIN D AND UV: A CO-DEPENDENCY RELATIONSHIP

Presenter: *Professor Rebecca Mason*

Bosch Distinguished Seminar Series

WEDNESDAY, 10 SEPTEMBER

9:15am to 10:15am

Auditorium

Medical Foundation Building (K25)

TITLE: BIOCHEMICAL, GENETIC AND EPIDEMIOLOGIC CHARACTERIZATION OF ALLELIC VARIANTS IN THE HUMAN CYP27B1 GENE

Presenter: *Florence Cheung*

A SENSITIVE AND SPECIFIC ELISA DETECTS METHIONINE SULFOXIDE-CONTAINING APOLIPOPROTEIN A-I IN HDL

Presenter: *Xiao Suo Wang*

MFB Seminar Series

WEDNESDAY, 10 SEPTEMBER

12:00pm to 1:00pm

Norman Gregg Lecture Theatre

Edward Ford Building (A27)

TITLE: GENETICS AND THE FAMILY: A CLINICAL PERSPECTIVE

Presenter: *Dominic Ross (Royal North Shore Hospital)*

School of Medical Sciences Seminar Series (Pharmacology)

Today's Research – Tomorrow's Medicine

FRIDAY, 12 SEPTEMBER

12:00pm to 1.00pm
Level 6
Centenary Institute

TITLE: HUMAN CORTICAL INTERNEURONS: HOW ARE THEY CHANGED POSTNATAL DEVELOPMENT AND IN SCHIZOPHRENIA?

Presenter: *Cyndi Weickert (Prince of Wales Research Institute)*

Anderson Stuart Seminar Series

WEDNESDAY, 17 SEPTEMBER

9:15am to 10:15am
Auditorium
Medical Foundation Building (K25)

TITLE: MOLECULAR DETERMINANTS ON A GLYCINE TRANSPORTER FOR A NOVEL CLASS OF ANALGESIC COMPOUNDS

Presenter: *Associate Professor Robert Vandenberg*

MFB Seminar Series

WEDNESDAY, 17 SEPTEMBER

12:00pm to 1:00pm
Norman Gregg Lecture Theatre
Edward Ford Building (A27)

TITLE: STRESS AND GABA-A RECEPTOR REGULATON

Presenter: *Kelly Skilbeck (Johnston, Final PhD Talk)*

School of Medical Sciences Seminar Series (Pharmacology)

FRIDAY, 19 SEPTEMBER

1.00pm to 2.00pm
Room N248
Anderson Stuart Building (F13)

TITLE: UNDERSTANDING THE MOLECULAR MECHANISMS OF THE FINAL STEP OF CYTOKINESIS, ABCISSION

Presenter: *Dr Megan Fabbro, Children's Medical Research Institute, Westmead*

Anderson Stuart Seminar Series

WEDNESDAY, 24 SEPTEMBER

9:15am to 10:15am
Auditorium
Medical Foundation Building (K25)

TITLE: GROWTH FACTORS AND DIABETES COMPLICATIONS

Presenter: *Associate Professor Steve Twigg*

MFB Seminar Series

WEDNESDAY, 24 SEPTEMBER

12:00pm to 1:00pm
Norman Gregg Lecture Theatre
Edward Ford Building (A27)

TITLE: DISSECTING BENZODIAZEPINE'S PHARMACOLOGY: FLAVAN-3-OL ESTERS AS NOVEL MODULATORS OF GABA_A RECEPTORS

Presenter: *Dr Sebastian Fernandez (Discipline of Pharmacology, University of Sydney)*

School of Medical Sciences Seminar Series (Pharmacology)

FRIDAY, 26 SEPTEMBER

1.00pm to 2.00pm
Room N248
Anderson Stuart Building (F13)

TITLE: CO-EXPRESSION OF CONNEXIN40 OR 45 SLOWS CONNEXIN43-DEPENDENT CONDUCTION: TOWARD GENE THERAPY FOR CARDIAC ARRHYTHMIA

Presenter: *Dr Eddy Kizana, Westmead Hospital*

Anderson Stuart Seminar Series

Today's Research – Tomorrow's Medicine

The Bosch Institute is a joint initiative of the University of Sydney and the Sydney South West Area Health Service
